

EXPECT THE BEST IN

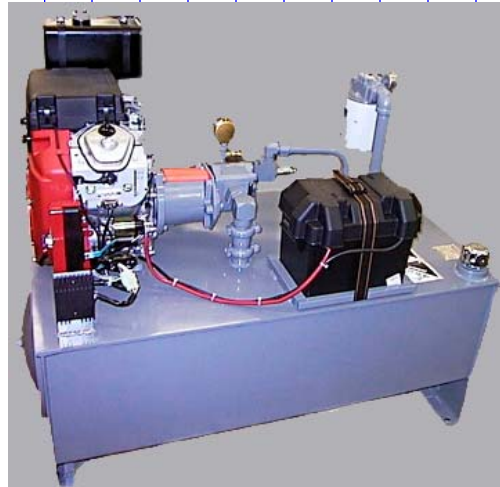

ENGINEERED SYSTEMS

SCOTT Industrial Systems has an experienced Engineered Systems Department. We are dedicated to providing you with the best value package for your hydraulic power unit requirements:

- ◆ Complete system design capabilities
- ◆ In-house CAD system to quickly generate high quality drawings
- ◆ Quality power unit assembly
- ◆ Technical manuals and schematic drawings for each system
- ◆ Complete testing of every power unit to meet your specifications
- ◆ Test results are documented for your records
- ◆ Start-up assistance can be provided
- ◆ A six month warranty for your **SCOTT** hydraulic power unit

SCOTT's comprehensive Engineered System capabilities will allow you to Expect and Experience The Best for your hydraulic power unit requirements.

We would appreciate an opportunity to work with you on your next power unit project.
